Jamie Fink – Security Analyst/ Full Stack Developer/ Software Engineer

Jamie Fink (Joshua Fink is deadname)
100 Lucas Drive, Bordentown NJ 08505
(609) 218-7219
jafink04863@gmail.com

I am an amateur cybersecurity analyst with proficiency in using vulnerability research tools like Nessus, BurpSuite as well as the SIEM tools Chronicle, Splunk and Azure Sentinel. I also have experience using packet sniffers such as Wireshark, Mitmproxy, and a bit of experience with Ettercap. On top of this I have experience in using Python, SQL, Javascript, Ruby, Java, HTML, and the Linux command line and the very abandoned language of AS3. I am currently developing my skills in the C languages, namely C# and C++, as well as building skills in using Assembly and Powershell.

I am analytical and solution-oriented with a strong background in organizational management and collaboration. I am eager to contribute to the security and quality of software systems.

Experience

December 2023 - Present

Cyber Security Student - Part Time

June 2018 - Present

- Developing skills necessary to ensure the quality of security systems.
- Familiarize myself with BurpSuite, and other SIEM tools.
